May 27-28 Jones Beach, NY	June 24-25 Barnes ANGB, Westfield, MA
Sept 30 Nantucket, MA	Oct 1 Nantucket, MA

Models of the Month

Jack Holmgren brought in a Seagull Models Dual Ace ARF. Power is by 2 OS .42 4C and that should be adequate to power this aircraft very nicely. Pretty Airplane.

Fred Meyer brought in a Goldberg Ultimate built from a kit in 1998 and covered the winter of 2006. Power is by a Super Tiger .90 turning a 14 x 6 prop. The Elevator and Rudder are Push-Pull and use Hitec 5625 Digital Servos. Three Futaba S148's converted to 2 BB are used for the ailerons. & throttle. A six-volt receiver pack is used with a Futaba FM receiver.

The Pilot is a Photo of Fred pasted on Balsa wood and scaled to fit the cockpit properly.
This is an inexpensive way to go and kind of FUNKY.

MINUTES OF APRIL 18, 2006 MEETING

The April 18, 2006 meeting of the RC Propbusters was called to order at 8:05 PM with 24 members present. The minutes of the January meeting were read by Bernie Liskov and accepted as read. The treasurers' monthly report was not read by Ron Czikowsky as he was out of town.

Reports:

Fred is running the Berenger. He has put a flyer together for advertising and he is also advertising for the Henry Struck event.

There was no information on the neighborhood and the Helicopter fly in. Dennis has asked for volunteers for the Rocket event on May 6 to demo R/C airplanes for the kids. The AMA event was decided to be held on the Sept. 22-24 weekend. Dennis said that in order to have helicopter flying, control line flying, a vendor area, etc., we would need to figure out how to do that with a site photo of the field. John Banks will bring in a large photo of the field for that purpose.

New Business:

Dennis announced that the Mohegan Sun has bought an R/C blimp which will be flown before the games and during halftime. He asked for experienced flyers to volunteer to fly it during the 18 home games held there. He suggested the instead of accepting pay, we could perhaps get use of the room to fly our electrics in the arena or have an event there. Also perhaps they could let us fly on one of their open pieces of property.

Tom Vernon asked that the field rules reflect what was voted on previously. One item was that we can now park against the telephone poles which are laid down in the ground. A second was that no alcoholic beverages were to be allowed either on the flight line or in the picnic area. A third was that the field rules should say the control line flying is to be allowed on the field when no one there objects to it. Fred Meyer showed a print of a new airplane setup bench to make airplane assembly, adjustment and startup easier. A motion was made for the club to pay for the material to build 4 more. The motion passed. Dennis Duplice Tom Vernon and Bob Trinque volunteered to build them. Dennis would like to do instructional stuff at future meetings.

Unfinished Business:

Dennis suggested that the club pay for the setup fee for the jackets and hats. Fred made the motion. It was seconded and passed. The Porta-Potti is now loaded and ready for use.

New Members

Kirk and Max Engel were voted in as new members.

MODEL OF THE MONTH

Fred brought in an Ultimate with a Super Tiger 90 which he started in 1998. It has a pull- pull rudder and elevator. He also added 2 aileron servos to the bottom wing. Jack brought in a Dual Ace ARF from Seagull models with 2 OS 48 4 strokes. Both guys won.

The meeting was adjourned at 8:55 PM.
